

SHOCKWAVE
MARINE SUSPENSION SEATING

S5

S5 SUSPENSION MODULE

TEMPORARILY OUT OF STOCK

Due to a worldwide shortage of bike shocks as a result of COVID 19, we have been unable to source a constant supply of shocks (we use a modified marinized version of a bike shock) for our S5 suspension modules.

Our next order is expected to arrive at the end of June. Our procurement team is working hard to order shocks from alternate suppliers from around the world, but to date they have not been successful. Lead times are very long right now, 6-12 months, from every potential supplier.

This being the case, we are unable to supply S5 suspension modules for website orders until July.

FEEL BETTER. TRAVEL FARTHER.
