SHOCKWAVE SEATS ANNOUNCES THE S5 SENTINEL SUSPENSION MODULE

SHOCKWAVE SEATS, a Canadian-based marine suspension company revolutionizing marine shock mitigation around the globe, announces the **SHOCKWAVE S5 Sentinel** Suspension Module, a re-engineered and updated version of the S5 Suspension Module. The **SHOCKWAVE S5 Sentinel** Suspension Module is designed for recreational boaters and boat builders and will be available to order in early 2022.

It features:

- Stronger construction with a 4-link design which increases lateral stability and reduces module flex under high-loads
- High-performance, adjustable, customized shocks from FOX Racing and ROCKSHOX
- Superior corrosion resistance – die-cast aluminum with improved marine-grade alloy
- Increased stability improves the performance of the module
- Added corrosion protection with chromate coating prior to powder coating

The **SHOCKWAVE S5 Sentinel** offers a FOX and a ROCKSHOX shock absorber and IGUS bushings. Many of the features present on the S5 have been maintained on the **S5 Sentinel**, including adjustable compression and rebound rates, minimal parts count and 316 stainless steel hardware. The **S5 Sentinel** is designed, manufactured and assembled in Canada.

“The **SHOCKWAVE S5** which we launched in 2017 has been a very successful product for us in the recreational boating market, and we wanted to build on this success with an updated and re-engineered S5 product to add strength, improve performance and upgrade corrosion resistance. We are very pleased with the re-engineered **SHOCKWAVE S5 Sentinel** Suspension Module and we’re excited to bring this improved product to the recreational boating market in 2022,” commented David Smith, **SHOCKWAVE** Owner and President.

MARINE SUSPENSION SEATING

FOR IMMEDIATE RELEASE

NOVEMBER 10, 2021, SIDNEY, BC, CANADA

SHOCKWAVE's new **S5 Sentinel** Suspension Module will have a typical lead time of 2 weeks. The difference in the retail price between the current S5 and the **S5 Sentinel** will not be significant, pricing will be available in January 2022. The **S5 Sentinel** is still offered in black and white. Eventually we will phase out the S5 and only sell the **S5 Sentinel**. Parts and replacement units for the current S5 will still be available for at least two years.

The **SHOCKWAVE S5 Sentinel** Suspension Module is compatible with the same **SHOCKWAVE** accessories as the S5 Suspension Module, and the **SHOCKWAVE Commander** Seat by Corbin, formerly known as the Corbin2 Seat.

SHOCKWAVE Seats, a division of Professional Components Ltd., is a world leader in military-class marine suspension seating and is located in Sidney, BC, Canada. For over 20 years, **SHOCKWAVE Seats** has built high-quality marine products, using military grade components. Customers include recreational and commercial builders and boaters, local, state, federal governments and military organizations in over 30 countries around the world.
